How do the points work?

- To learn a word once, you have to get it right **twice in a row**, or **three times in a row** if you make a mistake somewhere.
- Revising the word 24hours later = another point
- Revising the word a week later = another point
- Revising the word a month later = another point
- Revising the word 3 months later = another point.
- This is for each learning mode, so in total each word can be worth 20 points!
- You can check how many points you've earned for a word by counting the stars.
